

## How to make SMS callback call

To make SMS callback which call back to the phone typing the SMS.

1. Text to the access number with the below example:

99999999#7777#222222222

99999999 = Account number

7777 = Pin

222222222 = 'My Friend Number' (country code, area code and number)

2. System will callback to your phone and then connect to 'My Friend Number'

To make SMS callback to connect two phone number:

1. Text to the access number with the below example:

99999999#7777#222222222#111111111

99999999 = Account number

7777 = Pin

111111111 = 'My Phone Number' (country code, area code and number)

222222222 = 'My Friend Number' (country code, area code and number)

2. System will callback to 'My Phone number' and connect to 'My Friend Number'
